

School Based Experience Mornings

It is no secret that great teachers help create great learners. Our experience mornings aim to provide a supportive and invaluable development opportunity for staff at all stages of their career through professional discussion and in class observations

Experience the Early Years

Overview:

Suitable for teachers and teaching assistants working in Nursery and Reception the morning aims to share the typical experience of teaching and learning in the Early Years, igniting discussion and dialogue between schools and establishing a trusted platform for sharing of good practice.

The day will provide bespoke opportunities for delegates to observe classroom practice in the Early Years and to consider a range of themes, including developing early writing, maximising learning outdoors and engaging parents.

Experience Primary English

Overview:

Suitable for teachers working in KS3 or leaders of English in primary schools, the morning aims to provide an invaluable insight into the teaching of English across the primary age range, with a particular focus on the expectations at the end of Key Stage Two. The morning is an ideal opportunity for secondary colleagues to better understand pupils' prior learning in primary and will incorporate opportunities to sample children's work, observe lessons and meet with primary colleagues.
