Geography: Biomes Deforestation – the trial of Chico Mendes. History: Conflict through time WW2 Discussions around conscription, propaganda and conscientious objectors

At St Aloysius, Catholic Social Teaching is carefully integrated across a wide and rich curriculum. It helps children see the relevance of Catholic values beyond religious education lessons, fostering a holistic approach to education that addresses not just academic knowledge but also moral and ethical development. Catholic Social Teaching is also threaded through the personal development opportunities offered to our children such as: School Council, Mini Vinnies, Sports Leaders, Prayer Leaders, Eco Warriors and lunchtime monitors. These roles enable our children to have a voice in shaping their own educational experience, embodying our school mission, 'I have come that you may have life and have it to the full' John 10:10.
